

75,000 Acre Brown Farm To Be Put In Production By Sae Just Made

News From Your TOWN HALL

Well, we didn't do good getting potential advertisers among the candidates, just five short, but maybe the city is better off with the way it turned out—quality instead of quantity.

We did, however, but about \$75—which ain't bad in any league for platforms. To have three—on our "beliefs" or suggestions men, of the type they are, embrace, in principle those ideas leaves the impression with us that they are sound.

Mr. Risk, isn't here to speak for himself, but we are giving him credit for a 50 per cent acceptance of the three main items, hence the \$75 average.

The great American system of democracy, etc., has one great advantage. Maybe we're off on what we started to say. We ask you what you think? Is there any correction between the filling of, pies in the streets that are a disgrace to any hamlet just before election? Anyhow we got the holes filled and are thankful.

Some have said that a citizen should be penalized for not registering and voting to the extent of a head tax, or some other penalty. Certainly, now, of all times, when the casualty lists pass the million mark and some of them are from Belle Glade, we should not forget why those casualties—to maintain your and my right to vote as we feel please.

Your carelessness can be criminal, and it is carelessness in not voting. YOU ARE REGISTERED AND DO VOTE ON ELECTION DAY. VOTE FOR SOMEBODY. EVEN IF YOU'RE WRONG.

Patching Up Our Streets

The County Highway Department, under an agreement with the city to pay for the labor and material, this summer is engaged in work of repairing some of the worst of our public streets by putting in tarvia patch work. Heavy damage was done by the summer rains and the natural wear and tear of traffic.

Building Projects Move Along At Rapid Progress

Joe Freedlund, local contractor, has started the work on the new addition to the Lord Packing house, plant which will be erected to plant and the Rabin house on the south. The new structure will be 75x100 feet with concrete piers and deck walls. The Rabin interests will operate both the Rabin and Lord plants the coming season and will connect up the two plants.

Work on both of the new plants of the Borchardts and the American Fruit Growers Corporation, over in the new terminal allotment, are coming along well. The former has been given a permit for the building of a second addition to its original plant by the city commission.

B. F. Fears states that he has plans for considerable improvements on his Avenue A store properties and also some at the hotel, but until plans are made and bids received prefers not to give out specific details of his plans. Improvement of the garage, however, they will be extensive in their nature.

Discharged Service Men Attracted To Glades For Future

Upon discharge a man is asked to what neighborhood he is going and that is listed as his future mail address. A checkup with the Local Board discloses that 46 white men have designated Belle Glade as their future home, although they were not inducted from here, nor were they registered here.

There are a total of 8138 registered with Local Board No. 4 5321 of whom are negroes. This area has 742 white men in service with 24 additional over 38 years of age, making a total of 766 whites. Negroes accounted for 1049 plus 27 over 38 years of age, making a total of 1077 negroes.

There are a total of 1943 men in the service from this board.

There have been discharged 132 whites, with 26 over 38; 200 negroes have been discharged.

There are listed with the Board 1905 over 25 years of age who were not subject to call.

Parents of children, and especially new comers are requested to see that their children are duly registered so that assignments and text books may be made and handed out.

As the County Health Board, the past few years, has not required a "very weak" health quarantine period, it is likely that no such restriction will be invoked this year, but that decision is up to that board, which works under a state law.

Belle Glade Meets Requirements For State Project

Belle Glade is always getting into the "first" classification for public betterment movements and now State Secretary of Agriculture, Mr. Mayo, has released the announcement that this city is the first of the five Florida cities where new stock and agricultural display plant will be erected to provide a ten acre site and contribute in excess of \$10,000 to match the \$40,000 the state will spend on the project.

The secretary states that the state is preparing plans for each of the plants and buildings, suitable to local industrial requirements and uses intended. That these spots are being provided to encourage live stock raising and displays, provide places for regional pure-bred stock and horse sales, agricultural shows, horse races, meeting places for FFAO and 4-H clubs. He predicts a mammoth increase in the cattle business in Florida, and that by the end of 1945 there will be at least 200 pure bred herds in the state, of the Angus, Polled Herefords, Brahman, Jersey and Shorthorn types.

Of the uses enumerated above several of them will be of importance in Belle Glade, namely Agricultural shows, for the Everglades Fair could be conducted at the Experiment Station where the new outfit will be located, a gathering place for the Agricultural clubs, and yes, possibly horse racing, for many of the pony owners want a circular or straight away track included in the project.

With ever increasing herds of pure bred cattle coming and being raised in the Glades, it will not be long before there will be a call for a stock mart and the farm shed would be most available for such sales.

M. Murphy Heads Disaster And Relief Red Cross Work

Plans Made To Receive Threatened Storm, But It Blew Itself Out.

Benefiting by the most thorough methods of keeping track of and reporting threatened tropical hurricanes, the local Red Cross Disaster and Relief Committee met and organized to soften the impact of the small storm reported during the past week.

Mike Murphy, long in charge of communications for the local Committee, accepted the Chairmanship from Guy Bender, who has served for two years in a similar capacity.

Mr. Bender met with the Committee and assisted in the reorganization and impressed those present with the greatly improved methods of communication which include State Highway or more true equipped way Patrol. Mr. Bender's own with two way radio phones, as well as the half dozen short wave stations located along the dyke at each of the gates.

The following is a list of the committee for the area.

Co-chairman with Mike Murphy at Belle Glade, A. E. Kirchner, Cliff Livingston, Pasadena; South Bay Vice Chairman, W. C. Allen; Lake Harbor, Vice Chairman, E. A. Burkett; Sunny, Chairman, H. R. Hitchcock; Rescué, Chairman, Frank Dooley; Medical Aid, Chairman, Dr. Wm. J. Buck; Chief of Nurses, Miss Adelaide Perry; Shelter, Chairman, J. I. Freedlund; Food, Chairman, George Royal; Clothing, Chairman, Lee Puckett; Transportation, Chairman, Cliff Livingston; Passenger Transportation, A. R. C. Mrs. L. McWhorter; Communications, Chairman, Guy Bender; Registration and Information, Chairman, W. W. Weeks; Fund Raising and Public Information, Chairman, H. L. Haney; Central Purchasing of Supplies, Chairman, Joe Friedheim; Auxiliary Police Force, W. T. Carlisle and Ray Whitlock; Representative of U. S. Sugar Corporation, C. C. Pruitt; Representative of Occola Migratory Camp, Miles Anderson; Representative of Okeechobee Regulator Camp, H. O. Earwood; American Legion, Frank Morris.

The site chosen for the new structure is just north of the Belle Glade Lumber Company building to house the recently formed Glades Appliance Corporation, of which he is the president.

The site chosen for the new structure is just north of the Belle Glade Lumber Company building to house the recently formed Glades Appliance Corporation, of which he is the president.

The building will contain a large display room in front, a modern electric appliance repair and supply department and warehouse and an improved street on the south.

The new corporation has been given a franchise by the Westinghouse Corporation for the sale of its household appliances, to include refrigerators, stoves, hot water heaters, washing machines, quick freeze outfits, water coolers and its entire line of products.

The active management of the new corporation will be in the hands of Charles Fontaine as vice president and the other officers will be W. W. Weeks, as treasurer and B. G. Smith, as secretary. It is hoped to have the new business place open by November 15th.

Leaves Belle Glade School Faculty

Mrs. Kathleen K. Cox, who has been a member of the faculty of the Belle Glade school, has presented her resignation to the County Board of Public Instruction, and same has been accepted. Mary G. Crain has been assigned to the local schools subject to trustee approval. O. H. Martin is a newly appointed janitor for the South Bay schools. The librarian position here still remains open.

Lou Betzner Honored By Mother Lodge

Everglades Lodge, No. 211 F. and A. M. at Palooka on Tuesday night honored one of its former members when an apron was presented to Lou Betzner of Belle Glade, who joined that lodge 18 years ago. The presentation was made by Joe Cherry by invitation of acting Master J. Q. Howell, after he had conducted the ceremonies of the Master degree, assisted by other Belle Glade officers. Betzner was much surprised at the honored gift but made an excellent response of acceptance.

She Stands For Freedom, Equality and Your Rights. The Boys Fought to Preserve these Rights.

Are You Going to Let The Boys Down By Not Registering and Voting?

New Building And Business Firm For Belle Glade

R. Y. Creech, successful and long time Glades grower, today announces his intention to construct a modern business building to house the recently formed Glades Appliance Corporation, of which he is the president.

The site chosen for the new structure is just north of the Belle Glade Lumber Company building to house the recently formed Glades Appliance Corporation, of which he is the president.

The building will contain a large display room in front, a modern electric appliance repair and supply department and warehouse and an improved street on the south.

The new corporation has been given a franchise by the Westinghouse Corporation for the sale of its household appliances, to include refrigerators, stoves, hot water heaters, washing machines, quick freeze outfits, water coolers and its entire line of products.

The active management of the new corporation will be in the hands of Charles Fontaine as vice president and the other officers will be W. W. Weeks, as treasurer and B. G. Smith, as secretary. It is hoped to have the new business place open by November 15th.

Demand For New Farm Machinery In Glades To Be Heavy

Possibly no type of industry had taken a whipping during the war years, than just the farmers of the Glades section. While there has been need and a great demand for new equipment but little has been secureable or come into the area so the farmers have just had to get along the best they could with their worn, patched and outmoded equipment.

Inquiry of C. W. McDaniel, an equipment agent, what was needed here in the Glades in the way of replacements, and his reply was "everything now used and many other special pieces of machinery to come on the market to meet crop and harvesting needs. We need tractors, trucks, discing machines, planters, drag lines, bull dozers, potato diggers, and jeps. We also could use a corn harvesting machine for with labor at \$7 a day, farmers can't afford to harvest corn for feed, if they just had a harvester for our lands. Odd attachments could be applied to some of our machinery which would lessen farm work. I wish I had one now for my land."

New Owners To Develop 8,000 Acres Immediately Other Lands As Demanded

Lions Hear Ralph Blank Speak Here

No business of special import was in order at the Lions club dinner Wednesday, except that Ralph Blank, manager of the Palm Beach County Resource and Development Committee was the speaker of the day. He stated that he came to make a report as an operating agent to a board of directors and he proceeded to do that in a masterfully and informative manner.

He was free in his commendation of the past which, the Glades area had joined in all local and county projects and predicted that our vista of future development was just starting. It was just the type of speech which needs to spur them into greater thinking and development projects.

Potato Seed Treatments

Dr. Richard Townsend, agronomist at the Experiment Station, is entering upon the season stage of his work, where by he is trying out new methods for treating seed potatoes and new sprays. While some new type of seedling potatoes will be planted and watched as to record the greatest portion of tests will be on such varieties which showed some traits of value last year.

Dr. Townsend, from reports he gathered is of the opinion that the potato acreage to be planted this fall will equal if not exceed that of last year.

Miami Minister Preaches Here

Rev. Dodd, who serves on the Dade county prison parole board filled the pulpit at the Community Methodist church on Sunday in the absence of Rev. J. O. Jamieson and will give similar service on the coming Sabbath.

When the family-owned Brown Palm Company selected the Glades as the promising field for producing peanuts most economists, engineers, soil scientists and agronomists combined their efforts.

Modern Water Control With Rock Roads, Cattle, Rame and Sugar Cane For Land Use

With projects already under way thru previous possession the announcement by Turner Wallis, Manager, that deeds and cash money were exchanged between Shawano and Hillsboro Plantations Inc., the new owners, the sale of the 75,000 acre Brown Farm property apparently marks the official beginning of a stable and long range land use program second to none in the farming history of the Glades.

It is not our intention to disturb the equilibrium of the winter vegetable production in the Glades, although some vegetable farming will be continued and lands will be offered to tenants," said Mr. Wallis "but rather to embark on a long range program of volume production of the most spectacular fields by cattle fattening, rami and sugar cane."

"Of the 1,800 acres under water control, more than 200 acres have already been worked to experimental plots of grasses and some cattle are already grazing. We have sufficient rami seed beds now in the ground and are now in process of planting a cane seed bed."

"When the recession of water from undeveloped lands enables Dr. Townsend to bring in 8,000 acre tract will be ready with water control, rock roads, and plowed, under a sub-district of the Dade drainage District."

"A corps of supervisory personnel is being acquired and workers as needed, buildings are being repaired and made ready for both types of work."

"The new owners are coming in as neighbors, to be neighbors, to add to the sum total of a new community and hope to be an asset in making the Glades an unmatched well diversified agricultural empire."

When the family-owned Brown Palm Company selected the Glades as the promising field for producing peanuts most economists, engineers, soil scientists and agronomists combined their efforts.

Chamber Of Congress To Stage Drive For New Members

After a summer vacation, owing to the illness of President G. H. Royal, the Belle Glade Chamber of Commerce held a business meeting on Monday night at the city hall auditorium.

The president took occasion to give a talk on the future possibilities of the Chamber work, and he saw much to be done in the new postwar period. He was of the opinion that Belle Glade would grow and with its growth would come new problems for Chamber work.

A movement was started to increase paid up membership of the Chamber to at least 100 members and the committee to carry on this recruiting is composed of Charles Fontaine, Arnold E. Kirkman and Howard Haney.

The next meeting will be on Thursday evening, September 13th, at which time the annual election of officers will be held and an attempt will be made to have a big rally meeting.

President Roy informed that officers that owing to his illness Charles Fontaine, business manager, new farming programs will be inaugurated as well as in the packing house end of the deal. Green, indeed, will be these "teeming Glades."

Science Knows No Boundaries

In discussing the subject of "Public Health Workers," Walter W. R. May, editor and publisher of the Oregon City Enterprise, and president of the Clackamas County, Oregon, Public Health Association, makes some very interesting observations. He says: "It is because scientific medicine is so far in advance of the application of it that our job as public health workers is so important. If the public would apply what the doctors know about disease the drain upon human happiness would be still more reduced. Ours is the task of bringing the world abreast of what is available in medical and surgical science and creating a desire to use that knowledge."

"Authorities agree that the reason in this country that our life expectancy has risen from 49 years to 60 years, and may go to 65 or 70, while in a country like India it has dropped from 25 to 22 years, is because of administrative health procedures. Science is just as wise in faraway India as in the United States, for there are no boundaries to science. The public health worker is the difference in a large measure."

"Good community health programs are possible without pointing our efforts to communism and a socialized state. Public health nursing is a proper adjunct of private nursing without destroying the latter. Good state health departments and a good United States Public Health Service are possible without destroying the individualistic professions that gave these state services being."

"We can avoid the pitfalls of political public health if we can be sound and right in our social thinking. If we are not sound and right; if we do not shape the progress of public health within the pattern of free enterprise, we shall find, I fear, a great rift in the unbroken confidence the public has in us."

darkness existed on the streets
and in the homes.

Politics of a local nature will
now be a prominent topic of con-
versation and discussion in our
city. Good men have come out
for public office so lets not dis-
appoint them in the start of their
quest for public service by rip-
ping them up too much. These
men were sort of hand picked
candidates with a view that their

work might mean a larger and
better city and its affairs in the
hands of capable persons. You
will on September 11 get your
chance of casting a white or
black ball on their aspirations.
Belle Glade is just now entering
into an epoch of its history
which will need the services of
good, tried and intelligent men
to handle affairs and in anyone
of the four commissioner candi-
dates such men are to be found

TWO REGIONAL FAVORITES FOR DISTINCTIVE MERIT

CORN FRITTERS

RECIPE

Take ten ears of young tender field corn, cut off
the tips and then scrape—the "corn milk" provides
all the milk necessary for the fritters. Add to the
corn 4 well-beaten eggs, a little butter, pinch of salt
and sugar, a little flour, and drop from a tablespoon into
oil. Cook until brown and crisp. These are light and
delicious. Serves four to six depending on size of
appetites. Serve with a tossed green salad, broiled
tomatoes, and golden JAX Beer.

Send us your letter to regional recipe. We
will gladly pay \$5.00 for each one published.
Address: Recipe Editor, Jax Brewing Co., Jack-
sonville, Fla., and enclose your name, address
and telephone number.

... AND A TANGY
BOTTLE OF

Jax
Beer

● Simplicity is the key-
note of these two de-
lightful regional favorites,
Corn Fritters and golden
JAX Beer, the Drink of
Friendship. Yet the deli-
cate relish and appetizing
savor of both are unexcelled.

● Enjoy a sparkling glass of our great re-
gional brew, JAX. Drink JAX by itself,
or as a part of a pleasant meal highlighting
other regional favorites. Either way, JAX
offers premium enjoyment, though you
don't pay a premium price for its superb
qualities.

MAKE YOUR CAR
SHIPSHAPE
FOR SUMMER
-SINCLAIR-ize

Making your car Shipspace for Summer
will save wear. Sinclair-ize service will
make your car Shipspace as its manu-
facturer recommends. You need this ser-
vice now, as never before. No new cars
are being made. So better not take any
chances. Have your car Sinclair-ized right
away.

SINCLAIR-ize SERVICE INCLUDES THIS:

To save wear on gear, transmission and differential
are filled with summer Sinclair lubricants. Special
Hypoid lubricant is used for Hypoid gears.

To save engine wear, crankcase is filled with
Opaline Motor Oil. It stands up, lasts so long it
saves you money. Sinclair Pennsylvania Motor Oil
if you prefer at 5¢ more per quart.

To save tires, tires are inspected for cuts and bruises,
inflated to proper pressure.

To help prevent accidents, front wheels are removed
and lubricated if your car manufacturer recom-
mends.

To help prevent overheating, radiator is cleaned of
anti-freeze, rust and sludge.

To save wear and help prevent squeaks, chassis is
lubricated with special Sinclair lubricant.

To give better performance, save gasoline, spark
plugs are cleaned and adjusted. Battery and oil and
air filters are checked.

Betty Lou Powell returned home Sunday after spending a month in Hendersonville, N. C. as the guest of her uncle and aunt, Mr. and Mrs. H. V. Godfrey.

Merle Smith has returned from Orlando where he spent several weeks with Abner Johnson.

Richard E. Pierce is visiting his parents, Mr. and Mrs. T. H. Highsmith here. He has recently returned from service in the Pacific Theatre with the Army and has received his discharge papers at Congaree Field, Columbia, S. C.

Mrs. George M. Dykes and son, George Jr., of Miami has returned home after spending two weeks here as guests of Mr. and Mrs. Frank Rink and daughter, Jane.

Dr. and Mrs. R. L. Ringo have as their guest, K. A. Woodburn of Jacksonville. He is the brother of Mrs. Ringo.

The Misses Sara Lee Creech and Mary Lucy Moore spent several days at Ft. Myers Beach last week as the guest of Mr. and Mrs. R. Y. Creech. Mrs. L. T. Creech has been visiting there returned home with them Sunday.

Mr. and Mrs. C. A. Bailey have gone to Tuxedo, N. C. to bring their son, Billy, home who is ill with rheumatic fever at Camp Arrowhead.

Of much interest to friends here is the announcement of the marriage of Mrs. Helen A. Spang and Wilmer N. Thompson on August 11 in Ft. Lauderdale. The private ceremony was attended only by Mr. and Mrs. M. L. Alsbaugh, Jr. Mr. and Mrs. Thompson are now at home in Ft. Lauderdale.

Mr. and Mrs. Fred Ogde have returned here to make their home and he is employed by the Boe Appliance Co. Ogde recently returned from overseas duty in the European Theatre and received his discharge from the Army.

MRS. BOLES HONORED WITH STORK SHOWER

Mrs. Fred Boles was honored Thursday afternoon with a stork shower at her home, given by Mrs. Claude Williams. Games and contests were enjoyed and prizes awarded to Mrs. L. D. Bessent and Mrs. Boles. A desert course was served by the hostess. The guest list included Mrs. Harvey Matthews, Mrs. James Sadler, Mrs. N. D. Lloyd, Mrs. G. C. Howell, Mrs. Don Miller, Mrs. W. L. Martin, Mrs. Maude Watson, Mrs. J. H. Wilkinson, Jr., Mrs. J. H. Wilkinson, Sr., and Misses Nancy Stevens of Pahokee.

OES WILL ENTERTAIN PAHOKEE CHAPTER

In celebration of Robert Morris Day, the Belle Glade Chapter, No. 197, Order of Eastern Star will entertain the members of the Pahokee Chapter and their families with an out door covered dish supper at the Woman's Club building here at 6 p. m. on Thursday, August 30th. The planned program consists of a ceremony commemorating Robert Morris, founder of OES and musical numbers will be presented. Following supper games and stunts will be enjoyed with everyone taking part.

BETZNER'S

The Hardware Store

MAIN STREET

BELLE GLADE, FLA.

That the Japs did not like those American atomic bombs at all nor the U. S. A. any better.

That Germany is now tasting the bitter dregs which come to a defeated, disgraced nation. A taste of their own war medicine.

This square is worth a new washing machine or refrigerator to anyone who can prove that the statements in the side-line blocks are not true.

That there will be little Japanese face left to save after General McArthur finishes his mission in the Mikado's domain

Or that Betzner's is not the best place in the Glades to buy Farm, Building and General Hardware supplies.

ELECTORS OF BELLE GLADE

Belle Glade has outgrown its swaddling clothes and is now expanded into a city and is bound to have a still greater increase of population, farm and industrial growth. As citizens we should give our best endeavors to that end. We should make our laws and promotions to fit the times and provide citizens with safety and property protections.

These precautions include outstanding and well officered Police, Fire and Water Work departments—a capable City Commission, which will work together, and see that department heads are given the strongest backing in municipal affairs.

As our city expands and grows in population and commercial activities, our tax income will materially increase and from that tax income, citizens and officials alike, should be willing to authorize and provide means for city improvement projects, to include more and better paved streets, sidewalks, parks, recreational facilities, a city wide sanitary sewer system and sewer disposal plant, and in proper time a CITY MANAGER.

I believe in all the above things and as a commissioner would under proper controls give them my support. If you voters are with me on this platform I shall appreciate your support at the municipal election on September 11th.

LEE PUCKETT, Jr.

(Paid Political Adv.)

Announcement

With my record as your COMMISSIONER and a pledge to continue my best efforts in behalf of a BIGGER and BETTER BELLE GLADE

I ANNOUNCE MY CANDIDACY FOR

City Commissioner

IN THE CITY ELECTION

September 11, 1945

Our children and relatives have offered their all for our privilege of free expression of our desires in such an election as this. Are we treating them fairly if we do less than REGISTER and VOTE?

DO YOUR DUTY ON SEPTEMBER 11th—VOTE!

W. P. RISK

(Paid Political Adv.)

Announcement . . .

Every citizen owes some public service to his community, and it was with that thought in mind I consented to become a candidate for membership on the City Board of Commissioners. If Belle Glade ever was obligated to me in any way it has been cancelled and it is now my turn and opportunity to repay it with my personal service as a Commissioner.

Belle Glade is now a CITY. It should therefore assume accepted standards of government. My efforts will be to bring about such changes as will be of distinctive benefit to the city.

I favor competent, well organized POLICE and FIRE departments, headed by competent, experienced chiefs, whose duties would be outlined by the City Commission and it then would be up to such chiefs to be responsible for the supervision of personnel, equipment and operation.

The day is not far off when we should have a CITY MANAGER, to take full supervision of city affairs, as busy business men commissioners do not have the time to give attention to all the supervisory work of streets, health, inspection, water works and other duties that may spring up. I favor this move when the time comes.

I promise to give you as good service as possible, and looking forward to an improved Belle Glade will be the chief objective in my service.

ELECTORS . . . It is your duty to register and vote, so do not overlook that constitutional franchise by staying away from the municipal election on September 11th.

D. C. DeHAVEN

(Paid Political Adv.)

To Belle Glade Citizens and Electors

I am under deep personal appreciation of the fact that no one filed against me as a candidate for membership on the City Commission in Group 1. When elected I will endeavor to justify the faith and confidence you have so expressed in me.

A person seeking public office should have a platform in regard to civic administration affairs. When elected I have a few, such as:—

I shall stand for and advocate a harmonious and cooperative working City Commission, with constructive ideas for the betterment of our civic conditions, and close working relations to civic clubs and organizations.

I favor the passing of such legislation as will provide for the establishing of modern FIRE and POLICE departments under Commission direction, headed by Chiefs who are trained and know their business, and who can produce safe and sane fire and police protection to our city at all times. Also I favor a larger and better Volunteer Department until such time as paid department can be established.

Such improvements as may come up from time to time in the future, if they are for the general benefit of the city, will have my careful consideration and thought, and if right and proper, will be given my support.

My platform includes in a general way, a bigger, better, progressive City of Belle Glade.

Remember the municipal election is September 11th.

GEORGE A. TAYLOR

(Paid Political Adv.)

DEMANDS FOR NEW
(Continued from page one)
Egyptian wheat is one of the crops for which we need a har-

vester and thousands of acres of this new type grain would be planted for stock and feed use if the harvesting problem was out of the way. This provender

is good alike for cattle, horses and all grass eating animals. Farmers have been and are begging for new equipment and now with the raising of controls on such products there ought and will soon be an influx of such purchases as soon as deliveries can be effected.

75,000 ACRE BROWN FARM

Continued from page 1
their efforts to select that tract of land, from the hundreds of thousands of acres then available, offering most advantages as to depth and quality of soil, elevation above sea level and drainage potentiality.

Kay Davis' U. S. Soil Survey maps show that a majority of the Hillsboro Plantation tract is made up of the deepest muds in the Glades. Sixteen-foot elevations are not uncommon today on the tract; willow and elder grow profusely in scattered areas. The State of Florida, happy to have a development of this size in the midst of its large holdings, made contractual promises to the Browns concerning completion of the Hillsboro

roads, general drainage and whatever else was mentioned. These contractual promises made in all earnestness did not anticipate the devious paths of changing political scenes. Land promises slipped off into whippers of "maybe w'en" and financial manipulations found the Brown's in the hands of the Philistines, or Mr. Jesse Jones and the Receiver's courts.

This outstanding tract of contiguous ownership was saved for a group with a perspicuity of the future ten or fifteen years away and sufficient financial resourcefulness to carry thru.

Farmers of the community will be offered the use of lands at the Hillsboro Plantations as and when they desire, dependent on installations of drainage and improvements. The officers of the corporation are: C. Kenneth Baxter, President; Colin English, Vice President; S. H. Ranson, Jr., Vice President; John Stewart, Treasurer and Asst. Sec.; W. Turner Wallis, Sec. and Asst. Treas.; Harold R. Baxter, Asst. Sec. and Asst. Treas.; R. K. Lewis, legal counsel; Luther Jones, real estate consultant.

The directors are the first six named above and Mr. Wm. H. Foulk of Wilmington, Del.

Select New Site For Ramie Plant

Work has again been started at the new plant of the Florida Ramie Corporation at the present farm after a two weeks shut down. Differences arising at Tallahassee have been adjusted and a new location for the plant

being back from the highway has been selected. The present piling is to be cut down to the ground and all new piling sunk on the new location.

W.S.C.S. Hold Meeting At Church

The Woman's Society of Christian Service of the Community Methodist church held their regular meeting at the church Wednesday afternoon with Mrs. H. L. Royals, presiding over a brief session. Mrs. Herbert D. Beck led the devotional service.

A dessert course was served at the close of the meeting by the hostess, Mrs. I. W. West and Mrs. Bettie W. Harris. Others attending were Mrs. H. L. Royals, Mrs. N. T. Taylor, Mrs. C. P. Springer, Mrs. Frank Morris, Mrs. Dick LaFils and Mrs. A. L. Wallis.

Machines Arrive For Farm Work

Duda's Brothers, of Oviedo, who recently took over the ownership and operation of the Heller Bros. farm, are now in the midst of extensive improvements on their land. The S. E. Parker Company of Oviedo, is on the land doing a large ditching and dyking job, which will require around a year to complete. The Parker concern has three large drag lines at work and on Monday brought in a fourth large Byers machine to add to the battery of machines. The Duda's have purchased the Waters home here in Belle Glade which will

be occupied by Mr. and Mrs. Peaker and other members of the family members.

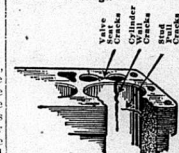

The Dulaney Contracting Co., working on the Starling plantation south of South Bay, also had a 18 ton Byers drag machine delivered to it on Saturday for use in its improvement operations. Both of these immense machines were brought in from Jacksonville under power take-offs taking about 12 hours for the trips.

Beauty . . . with a Bonus

Many new homes, industrial plants and business structures will be built in Florida when materials are again available. The increasing trend to masonry construction assures a large percentage will be built of concrete masonry units.

There are good reasons for this

Concrete masonry units give the owner beauty—with a bonus! That bonus is permanence—the permanence that comes with the strength and durability, with the fire-proof and termite-proof character of this versatile building unit.

Availability? Even now, while producing precisely manufactured, properly cured masonry units, we are improving and enlarging our plant in preparation for the building program that will come with peace.

RESOLUTION

NO. 603

WHEREAS the Town Commission of the Town of Belle Glade, in Palm Beach County, Florida, understands that the Interstate Commerce Commission has called another Hearing on the reorganization of the Florida East Coast Railway and

WHEREAS the citizens of Belle Glade, Florida, and shippers of this area will be directly affected economically by the operations and practices of the Florida East Coast Railway and, therefore, have a great interest in the plan of reorganization,

AND WHEREAS the Florida East Coast Railway has always been operated as an independent Railway and said Railway has been largely responsible for the development of the East Coast of Florida,

AND WHEREAS it is for the best interest of the people of the East Coast of Florida that the Florida East Coast Railway continue as an independent Railway and under the management and ownership of Florida citizens,

AND WHEREAS the Atlantic Coast Line Railway now operates a large percentage of Railway mileage in the State of Florida and is vitally interested in other sections of the State of Florida:

AND WHEREAS the Atlantic Coast Line Railway is controlled by interests outside the State of Florida and the giving of control of the Florida East Coast Railway to Atlantic Coast Line Railway will tend to monopolize Railway operations within the State of Florida,

AND WHEREAS, the Alfred I. duPont Estate is a Florida organization with their primary interest and investments in Florida and it is not only fully capable from the standpoint of finances and management to properly operate the Florida East Coast Railway but it has a direct interest in the future growth and development of the Florida East Coast Railway and the State of Florida.

NOW, THEREFORE, BE IT RESOLVED by the Town Commission of the Town of Belle Glade, in Palm Beach County, Florida, at Regular Session on the —EIGHTH— day of August, A. D. 1945, that:—

FIRST: In our opinion, control and operation of the Florida East Coast Railway by the Trustees of the Alfred I. duPont Estate is for the best interest of this community and more desirable than for control and ownership to be vested in the Atlantic Coast Line Railway.

SECOND: That we respectfully recommend that the reorganization under the control and management of the Trustees of the Alfred I. duPont Estate will be completed as soon as possible or as soon as practical.

THIRD: That the Town Clerk of the Town of Belle Glade is hereby instructed to immediately send a certified copy of this Resolution to the Interstate Commerce Commission—Washington, D. C., and also release copies to the local press.

DONE AND ORDERED AND RESOLVED on this the —EIGHTH— day of August, A. D. 1945.
